

25 June 2026

Professor Ergun Gide
Dr Ghulam Chaudhry
Dr Mahmoud El Khodr

Dear Ergun, Ghulam and Mahmoud,

I would like to pass on our congratulations for the recent conferral of your PhD candidate Elvina Gusman, for her thesis entitled 'Developing a Comprehensive Framework to Enhance Digital Technology-Enabled English Teaching and Learning in Indonesian Higher Education.'

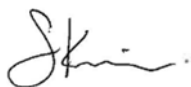

Elvina received a very strong examination result, with only minor revisions being required before the work could be accepted for conferral of degree. Both of Elvina's examiners also recognised the work as being of 'outstanding quality', defined as within the top 10% of the field. The examiners reported excellent quality across a range of areas including writing style, literature and research design.

We know the essential role that research supervisors have in guiding candidates to such a successful thesis result, so I would like to recognize and commend each of you, for your work in supporting Elvina.

I hope you were delighted by Elvina's examination result and conferral, and that you will either join her at an upcoming graduation ceremony or can arrange to celebrate with her in another way.

Thank you very much for the contribution you are making to the research higher degree community at CQUniversity – your time, expertise and care is much appreciated.

Yours sincerely,

Professor Susan Kinnear
Dean, School of Graduate Research
